

MSH Factsheet

Markham Stouffville Hospital (MSH) is a progressive, two-site community hospital with leading diagnostic services and patient care programs in acute care medicine and surgery, addictions and mental health and maternal and child rehab/transitional care and complex continuing care; all of which are focused on the needs of our rapidly growing communities. Partnering with other specialist providers, the over 450 physicians, 16 midwives, and 2,000 staff of the hospital make it the centre of community care for the almost 400,000 residents of Markham, Stouffville and Uxbridge.

Did you know?

- Markham Stouffville Hospital (MSH) opened its doors on March 5, 1990 to a welcoming community of approximately 77,000 people.
- In January of 2004, Markham Stouffville Hospital welcomed Uxbridge Cottage Hospital as a partner site.
- Between the two sites there are 265 beds – 245 at the Markham site and 20 at the Uxbridge site.
- MSH has 28 surgeons and close to 70 per cent of the hospital's surgical patients were treated and able to return home within the same day.
- Between the Markham and Uxbridge sites there are almost 1,000 volunteers giving back to their community.
- MSH's community is one of the fastest growing in Ontario and is also one of the most ethnically diverse municipalities in Canada.
- On March 10, 2013, Markham Stouffville Hospital opened the doors to its expanded new building – Building B. The expansion added over 350,000 square feet to the facility, allowing the hospital to continue to meet the needs of its growing communities. Following the opening of Building B, extensive renovations began on the original hospital building – Building A.
- On August 25, 2014, MSH opened the expanded and renovated main entrance, marking the completion of the multi-year expansion and renovation project.

In a single year, we...

- Treat over 88,000 emergency visits
- Perform over 1.6 million diagnostic and lab tests
- Welcome over 3,100 babies
- Complete over 20,000 surgical procedures
- Treat over 316,000 patients
